## DRYWALL PRODUCTS

### TRIM-TEX PROUD TO BE GREEN LEEDv4 BPDO – Sourcing of Raw Materials – Extended Producer Responsibility

Trim-Tex products are made with an effort to achieve sustainability and to offer builders quality products that will last the lifetime of their projects. We encourage environmentally responsible practices for the installation and disposal of our products.

Trim-Tex offers a product take-back program for trim scraps and non-modified (no paint/adhesive/sealant/coating) Trim-Tex products that have reached the end of their useful life. These scraps can be re-used in the production process, thereby contributing to keeping plastic out of landfills. This program helps projects to achieve the **LEEDv4 Building Product Disclosure and Optimization - Sourcing of Raw Materials** credit through Extended Producer Responsibility.

- STEP 1** Complete the **PRODUCT INTAKE FORM** on the following page.
- STEP 2** Contact [info@trim-tex.com](mailto:info@trim-tex.com) or call 847-679-3000 for pre-approval - have the completed product intake form readily available. Trim-Tex reserves the right to limit or refuse any request.
- STEP 3** Package and send materials (include the **PRODUCT INTAKE FORM**) to:

**Trim-Tex**  
Extended Producer Responsibility  
3700 West Pratt Avenue  
Lincolnwood, Illinois, 60712

**Please note, all packing and shipping expenses are the sole responsibility of the sender.**

Only clean Trim-Tex products may be returned - products must be free of all adhesive, sealants, paints, coatings, foreign objects, and any other attached materials. 093X-V cannot be returned.

**For further information, please contact our technical staff at [info@trim-tex.com](mailto:info@trim-tex.com).**
